

Developing your ability to act together

AGILE PROFILE® DEVELOPMENT

OUR JOINT OBJECTIVES

- To develop anticipation, cooperation and innovation, fundamental agility postures;
- To nurture synergies and compatibilities between actors.

The virtuous circle of acting together and the action of AGILE PROFILE® DEVELOPMENT

1 / With equal expertise and different personalities, two individuals can fail in a job or demonstrate so much added value in the same job. What makes the difference is the way in which one approaches a context. That is what we call acting.

2 / The AGILE PROFILE® DEVELOPMENT makes individuals and teams aware of their ability to implement the three fundamental postures of agility under pressure: anticipation, co-operation and innovation.

3 / This tool enables the acting together of an individual or of a team to be identified in relation to a specific context

The practices of the AGILE PROFILE® DEVELOPMENT

In a coaching context: to assist an individual and/or a team as regards the thought it puts into the knowing how to act in connection with the environment and one's/the group's way of being

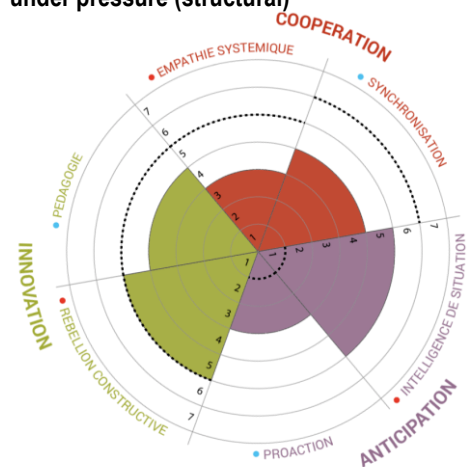

In an advisory context: to identify the levers for agile actions and in order to become aware of intra-team and inter-team interdependence actions

EXAMPLE

AGILE PROFILE® DEVELOPMENT

Postures and levers for actions when not under pressure (structural)
